

## Perioperative & Ambulatory Anaesthesia

Session

PBLD

Workshop

**\*This is a preliminary programme and is subject to change.**

### Measuring Patient Outcomes

Session Introduction

Does Short Term Improvement in Quality of Recovery Affect Long-Term Outcomes?

Disability-Free Survival in Older Patients

The Impact of Re-Admission

Live Q&A

Session

### The Frailty Conundrum

Session Introduction

Frailty, Comorbidity and Outcomes

Tools for Frailty Detection

Frailty-Is There Much That Can Be Done?

Live Q&A

Session

### Sleep Apnoea and the Anaesthesiologist

Session Introduction

Sleep Apnoea- Are We Walking Towards Disaster?

Perioperative Pointers to Minimize Adverse Outcomes

Sleep, Delirium: Are They Related?

Live Q&A

Session

## Perioperative & Ambulatory Anaesthesia

\*This is a preliminary programme and is subject to change.

### Management of Postoperative Nausea and Vomiting

Session

Session Introduction

Impact of PONV in an ASC

Pharmacological Management

Non-pharmacological Management

Live Q&A

### Blood Management

Session

Session Introduction

Updates in Patient Blood Management

Preoperative Treatment of Anaemia

Strategies in Reducing Blood Loss

Live Q&A

### Postoperative Pulmonary Complications

Session

Session Introduction

Composites and Definitions

Lung Protection Strategies- Does Low Volume Really Matter?

What Do the Outcome Trials Tell Us? What Do the Outcome Trials Tell Us?

Live Q&A

## Perioperative & Ambulatory Anaesthesia

\*This is a preliminary programme and is subject to change.

### Opioid Crisis and the Ambulatory Patient

Session

Session Introduction

Opioid Crisis and Challenges for Acute Pain Management in Ambulatory Setting

Multimodal Anaesthesia- How Many Non-opioid Do We Need?

What Is the Evidence for Opioid Free Anaesthesia?

Live Q&A

### Perioperative Hypothermia

Session

Session Introduction

Is There Really Harm When the Patient Is Cold?

How Can We Protect Our Patients from Perioperative Hypothermia

The Ideal Core Temperature Measurement - Does It Exist?

Live Q&A

### Neurological and Cardiac Complications in Noncardiac Surgery

Session

Session Introduction

Risk Assessment for Postoperative Delirium

Intraoperative Hypotension and Cardiovascular Complications

Intraoperative Hypotension and Neurological Complications

Live Q&A

## Perioperative & Ambulatory Anaesthesia

**\*This is a preliminary programme and is subject to change.**

### Neuromuscular Blockade Monitoring and Reversal (Pro-Con Debate)

**Session**

- Session Introduction

---

- Neuromuscular Monitoring Should Be Done for Every Paralysed Patients (Pro)

---

- Neuromuscular Monitoring Should Be Done for Paralysed Patients (Con)

---

- Reversal with Sugammadex Should Be Routinely Used (Pro)

---

- Reversal with Sugammadex Should Be Routinely Used (Con)

---

- Live Q&A

### Ophthalmic Anaesthesia

**Session**

- Session Introduction

---

- General Anaesthesia Is Better than Regional Anaesthesia for Cataract Surgery in Patients with Dementia?

---

- Fasting or No Fasting before Cataract Surgery?

---

- Sedate or Not to Sedate during Cataract Surgery?

---

- Live Q&A

### Cardiac Risk Assessment before Noncardiac Surgery

**Session**

- Session Introduction

---

- North American Perspective on Risk Assessment

---

- International Perspective on Risk Assessment Approaches

---

- Does Functional Capacity Have a Major Role in Cardiac Risk Assessment

---

- Live Q&A

## Perioperative & Ambulatory Anaesthesia

\*This is a preliminary programme and is subject to change.

### Out of the Anaesthesiologists' Comfort Zone

Session

Session Introduction

Interventional Radiology NORA

Bronchoscopy NORA

Emergency Situations in the PACU

Live Q&A

### Future Direction in Obesity Anaesthesia

Session

Session Introduction

Drug Dosing in Obesity-Myths Debunked, Tools That Help

Obesity and Opioid-Free Anaesthesia-The Way Forward

Perioperative Safety the Obese Patient - Key Points

Live Q&A

### Preoperative Assessment

Session

Session Introduction

Preoperative Assessment Clinic. What Can It Offer?

CPET testing - Is There a Role?

Preoperative Evaluation When There Are Resource Constraints

Live Q&A

## Perioperative & Ambulatory Anaesthesia

\*This is a preliminary programme and is subject to change.

### Acute Kidney Injury

Session

Session Introduction

Pathophysiology and Epidemiology

Strategies to Reduce AKI

Treatment of AKI

Live Q&A

### Enhanced Recovery. What's New?

Session

Session Introduction

Critical Elements in an Enhanced Recovery Protocol

Fluid and Hemodynamic Management. What Do the Trials Tell Us?

Extended Recovery

Live Q&A

### Perioperative Management of Cancer Patients

Session

Session Introduction

Preoperative Consideration of Cancer Patients

Choice of Anaesthetics. Does It Make a Difference?

Opioids and Cancer. What Is the Evidence?

Live Q&A

## Perioperative & Ambulatory Anaesthesia

**\*This is a preliminary programme and is subject to change.**

### Preparation Lists and Rehabilitation

Session

Session Introduction

Preparation Lists- Optimising Chronic Health Conditions before Surgery

Multimodal Prehabilitation- Changing Behaviour for Surgical Outcomes and Long-Term Health

Digital Enablement for Prehabilitation and Optimisation Pathways

Live Q&A

### Quality Monitoring

Session

Session Introduction

Critical Incident Reporting Systems- How to Make It Work

Anaesthesiology and Its Medical Challenges

Safety Issues in NORA

Live Q&A

### PBLD

PBLD

Anaphylaxis. Pathophysiology and New Biologics to Treat Allergies

# 18<sup>th</sup> World Congress of Anaesthesiologists

3 - 7 March 2024 SINGAPORE

Together We Can

#wca2024

## Perioperative & Ambulatory Anaesthesia

\*This is a preliminary programme and is subject to change.

---

**PBLD**

Management of Severe Asthmatic

PBLD

---

**PBLD**

Intraoperative Hypotension in Elderly Patient

PBLD

---

**PBLD**

Successful ERAS Implementation

PBLD
