

Regional Anaesthesia

Session

PBLD

Workshop

***This is a preliminary programme and is subject to change.**

Strategies to Prevent Rebound Pain After Regional Anaesthesia

Session

Session Introduction

The Role of Local Anaesthetic Additives & Adjuncts

Continuous Catheter Techniques & Management

Essentials of a Multimodal Analgesia Regimen

Live Q&A

Regional Anaesthesia Safety

Session

Session Introduction

A Closed Claim Review

Strategies to Avoid Neurologic Injury

How to Deal with Post Block Neurologic Deficit

Live Q&A

Global Regional Anaesthesia Initiatives

Session

Session Introduction

How to Set up a Regional Anaesthesia Program

The WFSA Regional Anaesthesia Training Program

Technologies to Promote Distance Regional Anaesthesia Training

Live Q&A

Regional Anaesthesia

*This is a preliminary programme and is subject to change.

Regional Anaesthesia in Developing Countries

Session

Session Introduction

Overcoming Barriers to Regional Anaesthesia in Developing Countries

Cost-Effectiveness of Regional Anaesthesia in Developing Countries

How to Set Up an Acute Pain Service

Live Q&A

Neuraxial Anaesthesia

Session

Session Introduction

Day Surgery Short Lasting Spinal Anaesthesia

Practical Tips for Unilateral Spinal

Ultrasound Guided Neuraxial Procedure - When & How

Live Q&A

Erector Spinae Plane (ESP) Block

Session

Session Introduction

When is an ESP Block Clinically Indicated? An Evidence Based Review

What Degree of Pain Relief Does an ESP Block Add to a Balanced Multimodal Analgesic Regimen?

Optimal ESP Block Technique - How to Avoid Failure

Live Q&A

Regional Anaesthesia

*This is a preliminary programme and is subject to change.

Quadratus Lumborum Block (QLB) for Abdominal Surgery

Session

Session Introduction

Clinical Indications of QLB - Laparoscopic Surgery, Laparotomy or Both?

Quantifying the Value of QLB in the Presence of Multimodal Analgesia - Is it Clinically or Statistically Significant?

Comparing 3 Techniques of QLB - Are They Created Equal?

Live Q&A

Regional Anaesthesia for Shoulder/Clavicle/Scapular Surgery

Session

Session Introduction

Phrenic Nerve Sparing Block Techniques - When & How

New Blocks for Clavicle & Scapular Pain

Prolonging Postoperative Analgesia - IV/ Local Anaesthetic Adjuncts & Continuous Catheter Technique

Live Q&A

Best Regional Anaesthetic Techniques & Options for Breast Surgery

Session

Session Introduction

Lumpectomy

Simple Mastectomy

Breast Surgery with Axillary Dissection

Concluding Remarks - Expert Recommendations

Live Q&A

Regional Anaesthesia

***This is a preliminary programme and is subject to change.**

Regional Analgesia for Thoracic Surgery/Trauma - When & How

Session

- Session Introduction

- Thoracic Epidural Analgesia

- Paravertebral Block

- Erector Spinae Plane Block

- Concluding Remarks - Expert Recommendations & Decision Making

- Live Q&A

Regional Anaesthesia for Abdominal Surgery

Session

- Session Introduction

- Rectus Sheath Block

- TAP & Quadratus Lumborum Blocks

- Erector Spinae Plane Block

- Concluding Remarks - Expert Recommendations & Decision Making

- Live Q&A

Regional Anaesthesia/Analgesia for Hip Surgery

Session

- Session Introduction

- Total Hip Replacement

- Arthroscopic Hip Surgery

- Hip Fracture Surgery - PENG/Fascia Iliaca/Femoral Nerve Blocks

- Live Q&A

Regional Anaesthesia

*This is a preliminary programme and is subject to change.

Best Regional Anaesthesia Regimens for Knee Surgery

Session

Session Introduction

Anterior Cruciate Ligament Repair

Total Knee Replacement

Does Regional Anaesthesia / Analgesia Improve Long Term Pain & Functional Outcomes?

Live Q&A

Regional Analgesic Techniques for Fast Track Surgery

Session

Session Introduction

How to Set Up an Enhanced Recovery After Surgery Program

Hip & Knee Replacement Surgery

Colo-rectal Surgery

Thoracic Surgery

Live Q&A

Pro - Con Debates - Regional Anaesthesia Controversies

Session

Session Introduction

RA is Preferred for Fractured Hip Surgery (Pro)

RA is Preferred for Fractured Hip Surgery (Con)

Regional Anaesthesia Prevents Postoperative Cognitive Dysfunction (Pro)

Regional Anaesthesia Prevents Postoperative Cognitive Dysfunction (Con)

Live Q&A

Regional Anaesthesia

***This is a preliminary programme and is subject to change.**

Updates on Pediatric Regional Anaesthesia

Session

Session Introduction

Regional Analgesia for Abdominal Surgery - Epidural, QL or Anterior Abdominal Wall Blocks?

Regional Anaesthesia for Congenital Hip Corrective Surgery - What is the Best Choice?

Update on Caudal Anaesthesia

Live Q&A

Innovations in Regional Anaesthesia & Acute Pain Management

Session

Session Introduction

Ultrasound Guided Peripheral Nerve Stimulation & Cryoneurolysis for Acute Pain

Regional Analgesia for Spine Surgery

Ultrasound-Guided WALANT (Wide-awake Local Anaesthesia No Tourniquet)

Live Q&A

Video Presentations of Challenging Regional Anaesthesia Cases - Lessons Learnt

Session

Session Introduction

Upper Limb Block

Lower Limb Block

Thoracic Block

Abdominal Block

Neuraxial Block

Live Q&A

Regional Anaesthesia

***This is a preliminary programme and is subject to change.**

PBLD

A Healthy Professional Golfer Plans to Have a Left Shoulder Rotator Cuff Repair Surgery under General Anaesthesia. You Wish to Offer an Interscalene Block for Postoperative Pain Relief.
