
Airway Management

Session

PBLD

Workshop

*This is a preliminary programme and is subject to change.

Workshop

Advanced Oxygenation Techniques

Discuss indications, contraindications, advantages and disadvantages of High Flow Nasal Oxygen in different situations and setup of HFNO machine.

Facilitators: Anil Patel, UK
TBC
Alistair McNarry, UK
George Kovacs, Canada

Workshop

Front of Neck Access

Discuss elective and emergency front of neck access. Delegates will practice Scalpel/Bougie and Needle Cricothyroidotomy techniques on manikin. Please note: Needle Cricothyroidotomy is not DAS endorsed technique for adult airway.

Facilitators: Conan McCaul, Ireland
Pierre Bradley, Australia
Fauzia Mir, UK
TBC

Workshop

Fibreoptic Intubation

- Flexible bronchoscopic intubation & ORSIM Virtual Endoscopy
- Mouth, Nose, Nasal endoscopy, SAD + Aintree.
- This Station allows delegates to develop their flexible bronchoscopic handling skill. They will perform bronchoscopic intubation including SADs and use of Aintree exchange catheter. Practice flexible bronchoscopic skills on airway mannequins
- Develop hand eye co-ordination skills using the ORSIM bronchoscope.
- Advanced technique negotiating simulated difficult airway.
- Learn sedation, topicalisation, oxygenation and practical tips to improve success with awake tracheal intubation, using flexible bronchoscope and videolaryngoscopy.
- Delegates will also learn how to perform Video-Assisted Flexible Bronchoscopic Intubation (VAFI).

Facilitators: Imran Ahmad, UK
Ravi Bhagrath, UK
TBC
Ross Hofmeyr, South Africa

Workshop

Paediatric Airway Workshop

- Basic principles and advanced techniques negotiating simulated difficult Paediatric airways will be demonstrated.
- Comparing blades for direct laryngoscopy, channelled and non-channelled & pros and cons in paediatric population. Unique features and techniques for intubation in children will be demonstrated.

Facilitators: Nicola Disma, Italy
Thomas Riva, Switzerland
Thomas Engelhardt, Canada
Clyde Matava, Canada
Paul Baker, New Zealand

Workshop

Supraglottic Airway Devices & Aintree Catheter

- Discuss the pros and cons of different features in a variety of first & 2nd generation SGAs.
- Learn techniques to facilitate intubation through SGAs including use of the Aintree Catheter.

Facilitators: TBC
Nabil Shallik, Qatar
Carin Hagberg, USA
Matteo Parotto, Canada

Workshop

Tracheostomy Care

In this station delegates will also learn step wise technique of managing obstructed or displaced tracheostomy tube. Global Tracheostomy guidelines will be discussed.

Facilitators: Sheila Myatra, India
Jigeeshu Divatia, India
Andy Higgs, UK
Faisal Shamim, Pakistan

Workshop

Ultrasound, Gastric & Neck

This workshop will give delegates the opportunity to learn basic airway ultrasound, identifying airway anatomy as well as gastric ultrasound and quantitative estimation of gastric contents. There will be a chance to do this in real time on volunteers.

Facilitators: Michael Kristensen, Denmark
TBC
Elizabeth Behringer, USA
Conan McCaul, Ireland

18th World Congress
of Anaesthesiologists
3 - 7 March 2024 SINGAPORE

Together We Can

Workshop

Videolaryngoscopy

- Comparing blades for direct laryngoscopy, channelled and non-channelled & video stylettes.
- Experience all the different classes of Videolaryngoscope available.
- Unique features and techniques for intubation demonstrate including VAFI.
- Discuss advantages, disadvantages, and the correct method of using hyper angulated channelled and non-channelled VL.

Facilitators: Tim Cook, UK
TBC
Alistair McNarry, UK
