

Perioperative & Ambulatory Anaesthesia

Session

PBLD

Workshop

*This is a preliminary programme and is subject to change.

Workshop

Perioperative Point of Care Ultrasound Masterclass

1. Acquire an understanding of basic ultrasound physics, knobology, artifacts and image optimization.
2. Acquire the theoretical knowledge and practical skills required for perioperative POCUS applications, focusing on cardiac, lung, gastric, eFAST and basic TEE.
3. Learn the image interpretation and integration of POCUS into clinical practice.

Facilitators: Suresh Paranjothy, Singapore
Suneel Desai, Singapore
Koh Zheng Ning, Singapore
Ashokka Balakrishnan, Singapore

Workshop

Physical Examination Techniques of the Chronic Pain Patient

1. Precision anaesthesia, research, guidelines and relevance of real-world clinical evidence.
2. Introducing the safe brain initiative, focus on improving patient reported outcomes and reducing pod.
3. The SBI fast-track implementation approach at the University of Ankar.
4. Singapore: First reports from SBI flagship hospital in Asia.
5. Hirslanden Clinics Switzerland – improving outcomes, increasing satisfaction and saving costs?
6. How can we best support the transfer of research knowledge to the patients bedside?

18th World Congress of Anaesthesiologists

3 - 7 March 2024 SINGAPORE

Together We Can

#wca2024

Facilitators: Wolfgang Buhre, Netherlands
Edoardo de Robertis, Italy
Finn Radtke, Denmark
Basak Ceyda Meco, Turkey
Lian Kah Ti, Singapore
Joana Berger Estilita, Switzerland
